that doesn't cost
the
earth.

tab ZERO file 

tabZEROfile

Carbon Neutral

Reduced and Reusable Packaging

Sustainable Forestry

Acid Free Paper

TAB is very proud to offer you the tabZEROfile, a breakthrough in environmentally conscious filing.

By taking a holistic view of the product manufacturing lifecycle, including packaging, transportation and disposal, we were able to create a truly “environmentally friendly” product.

The result is a 100% recyclable, carbon neutral, acid free folder made from Sustainable Forestry Initiative (SFI) certified products. Even the packaging is recyclable and reusable!

tabZEROfile is the perfect folder for organizations that are doing all they can to reduce their impact on our environment.

And the good news is that this folder is the same price as a standard folder!

Carbon Neutral

TAB has partnered with ZeroFootprint (www.zerofootprint.net) to calculate the carbon emissions created in the production of tabZEROfile. We then offset those emissions by funding a forest restoration project in British Columbia as part of our ongoing commitment to reducing TAB's carbon footprint.

Further information on the British Columbia forest restoration project can be found by visiting <http://www.zerofootprint.net/offsets/projects>.

Environmental Profile

- Carbon Neutral
- Acid Free
- Product and Packaging are 100% recyclable
- Made from Sustainable Forestry Initiative (SFI) certified products
- Packaging is 94-100% recycled content
- Packaging designed to be re-used as an offsite storage box

Other Features

- Highly durable
- Same price as a standard folder
- One year warranty
- Made in Canada
