

a folder
that doesn't cost
the earth.

tab ZERO file 

tabZEROfile

Carbon Neutral

Reduced and Reusable Packaging

Sustainable Forestry

Acid Free Paper

Datafile is very proud to offer you the tabZEROfile, a breakthrough in environmentally conscious filing.

By taking a holistic view of the product manufacturing lifecycle, including packaging, transportation and disposal, we were able to create a truly “environmentally friendly” product.

The result is a 100% recyclable, carbon neutral, acid free folder made from Sustainable Forestry Initiative (SFI) certified products. Even the packaging is recyclable and reusable!

tabZEROfile is the perfect folder for organisations that are doing all they can to reduce their impact on our environment.

And the good news is that this folder is the same price as a standard folder!

Carbon Neutral

Datafile has partnered with ZeroFootprint (www.zerofootprint.net) to calculate the carbon emissions created in the production of tabZEROfile. We then offset those emissions by funding a forest restoration project as part of our ongoing commitment to reducing Datafile's carbon footprint.

Environmental Profile

- Carbon Neutral
- Acid Free
- Made from Sustainable Forestry Initiative (SFI) certified products
- Product and Packaging are 100% recyclable
- Packaging is 94-100% recycled content
- Packaging designed to be re-used as an offsite storage box

Other Features

- Highly durable
- Same price as a standard folder
