

FORTIfile FILE FOLDERS

More durable and useable

Datafile **FORTIfile** folders, reinforced with **eternafilm**, are the most durable records management file folder products available. **eternafilm** is an environmentally friendly protective coating that is applied over the entire folder's outer surface, increasing the strength and rigidity of every Datafile **FORTIfile** product.

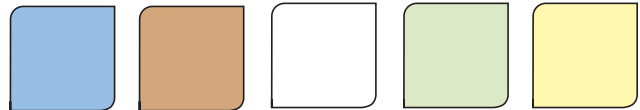

The Datafile **FORTIfile** line of folder products includes file folders, pressed files, pressed classification files and expansion pockets in A4, foolscap and metric sizes.

Quicker file access

Segmenting groups of files by colour makes accessing files faster and easier -- one colour for Human Resources and another colour for Marketing files. That's why all Datafile **FORTIfile** products are available in five vibrant colours: Azure Blue, Mocha Brown, Pearl White, Mint Green and Spring Yellow.

Write on, erase and reuse

Durable Datafile **FORTIfile** products are designed to be reused. Use pencil, pen or marker when first identifying the file -- on a blank exterior matte finish or on a custom pre-printed form. When the folder contents can be destroyed, simply erase the writing and reuse the folder.

Azure
Blue

Mocha
Brown

Pearl
White

Mint
Green

Spring
Yellow

Benefits

Reduced costs (more durable for longer folder life; plus write on, erase and reuse feature)

Improved retrieval time (colour classification system let's you recognize folder category at a glance)

Environmentally friendly (**eternafilm** coating is fully recyclable)

DATAFILE FILING SYSTEMS

Complete family of coloured file products (file folders, pressed files, press classification files and expansion pockets) let you recognise files at a glance

*Environmentally friendly
eternafilm coating*

*The most durable folder
products available*
