

FORTifile FILE FOLDERS

More durable and useable

TAB **FORTifile** folders, reinforced with **eternafilm**, are the most durable records management file folder products available. **eternafilm** is an environmentally friendly protective coating that is applied over the entire folder's outer surface, increasing the strength and rigidity of every TAB **FORTifile** product.

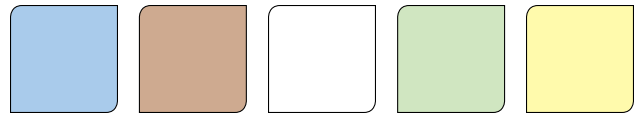

The TAB **FORTifile** line of folder products includes file folders, pressed files, pressed classification files and expansion pockets in letter, legal and metric sizes.

Quicker file access

Segmenting groups of files by colour makes accessing files faster and easier – one colour for Human Resources and another colour for Marketing files. That's why all TAB **FORTifile** products are available in five vibrant colours: Azure Blue, Mocha Brown, Pearl White, Mint Green and Spring Yellow.

Write on, erase and reuse

Durable TAB **FORTifile** products are designed to be reused. Use pencil, pen or marker when first identifying the file – on a blank exterior matte finish or on a custom pre-printed form. When the folder contents can be destroyed, simply erase the writing and reuse the folder.
