Create and Price Your Custom Folder!

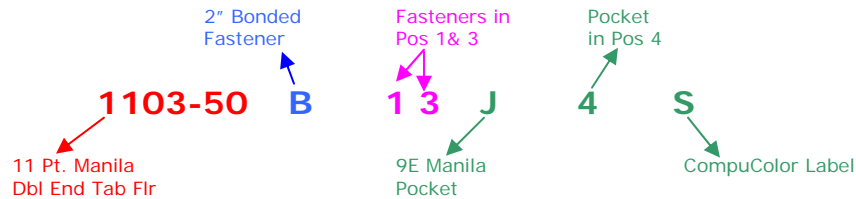

Creating and pricing a custom folder is as simple as making a model number. Follow these four easy steps and refer to model number created below:

1. Select a container, either folder or pocket. Use the 6-digit model number as the first 6-digits of your custom folder model number. Example: 11 Pt. Manila folder with a double end tab is model number 1103-50.
2. Select the components you want to add to the folder in the order listed in the Component Table above. This could include fasteners, pockets, dividers, printing, and labels. Add the component model letter onto the end of your 6-digit model number chosen above. Example: 1103-50 with a 2” bonded fastener is 1103-50B.
3. Specify where you want the component located by the position numbers shown. Example: You choose positions 1 and 3 for the 2” bonded fastener. Your model number becomes 1103-50B13.

Printing Positions	Location
Position 1	Outside Front
Position 2	Inside Front
Position 3	Inside Back
Position 4	Outside Back

- Repeat steps 2 and 3 for each additional component on the custom folder.
Add components in ascending alphabetical order so fasteners always occur in the model number before pockets, etc.

Pricing Value Added Stock Folders: Stock folders with any combination of standard fasteners, pockets, dividers, printing, and/or factory attached labels will have a price equal to the sum of the price of the folder and the value added components. Add up the prices, what could be easier? (Refer to Value-Added Prices at the end of the Price List).

Alternating Fasteners: Call Customer Service for custom quote request.

To order the Rapid Response Label option, you must contact Customer Service for pre-approval and additional details.

Custom Label Specifications: All factory-attached labels require a Label Specification for the initial order and customer approval prior to production. On repeat orders, specify the label design number, previous order number, number series and sort sequence. If any changes are made to the label or folder, a new specification is required. Label samples are required for competitive match color requests.

Custom Printing Requests: Samples or artwork are required for all new print copies and customer approval is required prior to production. For new print copies, a plate charge will apply. Contact customer service for specific details.
