

OPTIMEDIA CABINETS FOR TAB FILING APPLICATIONS

High-End Shelving System

Optimedia shelving combines modularity of interior components with high-level security and excellent visual appeal. The Optimedia line of cabinets are highly popular for clients who are looking to store a variety of media types (not just folders), or for clients who are looking for cabinets in which the interior components can be changed or re-arranged as needed. There are literally an infinite number of custom designed cabinets you can create to meet any client's needs.

Sidewinder Advantage

This style of cabinet features two doors that open from the middle of the cabinet and slide into either side of the unit – similar to a French door. They offer high security via the Tambour slot while providing easy lock access at the centre of the cabinet. This is also an ergonomic option because users do not have to bend over to close lower doors - ideal for high traffic areas. Additionally, Sidewinder cabinets are constructed of durable 18-gauge steel.

Benefits

Matches any storage needs

Can meet current needs and be re-configured to meet any possible future needs

Unique and pleasing design to match office decor

Complete and total content security

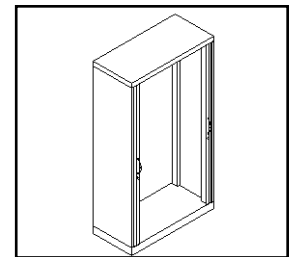

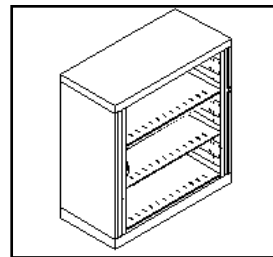

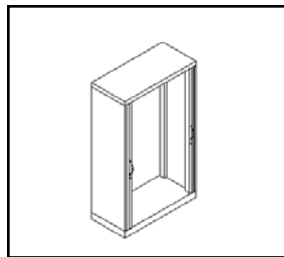

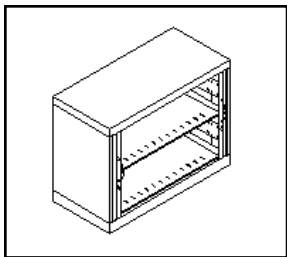

Interior totally modular to accomodate changing needs

Completely Versatile

Optimedia cabinets are completely versatile; the interior components of each cabinet are custom designed to each client's individual needs. Optimedia cabinets can be designed to hold anything from standard lateral or top-tab files to computer CD's, Floppy Disks, roll-out trays, binders, books and any other media imaginable. Better yet, each interior component can be removed, replaced or re-arranged at anytime in the future. Optimedia is the storage system that always meets the clients needs, even as they change over time.

About TAB

As the recognized leader in the records and information management industry, we develop custom solutions that enable our clients to control, store and access critical information. We offer top quality filing systems, media storage equipment and specialists that solve complex records and information management challenges. With more than 55 years of experience, we serve clients in a variety of industries including legal, finance, healthcare, insurance, manufacturing, education and government.
